

NH DEPT. OF SAFETY, Division of Fire Standards and Training & Emergency Medical Services,  
in cooperation with Texas Engineering Extension

presents...

# **MGT 346: EOC Operations & Planning Course**

**CREF # 2316ODP120**

## **MGT 346 Course information:**

### ***Practice EOC operations in a large-scale incident!***

This 3-day course allows participants to practice EOC operations in a large-scale incident coached by instructors who have emergency management experience and who provide this training nationally. They will use multi-agency coordination responsibilities, processes, and procedures and focus on key management processes required to effectively and efficiently operate an EOC. The participants gain practical experience via a series of interrelated activities and exercises supported by a state-of-the-art computer simulation system. Each student will gain a better understanding of the management requirements and skills necessary to effectively function as a member of an EOC during a large-scale event.

## ***Target Audience:***

Participants must be actively employed or tasked to work in an EOC. This course is **NOT** intended for the basic fire fighter, police patrol officer, or EMT. Participants should also possess a working knowledge of ICS. This can be gained through FEMA's IS-100, 200, 700 & 800 courses. Experience and job position will also be considered.

## ***Prerequisites:***

### **None required...**

However, FEMA IS-775 (EOC Mgt. and Operations) and FEMA IS-701, (National Incident Mgt. System Multi-Agency Coordination System) are highly recommended.
